

Absolutism: Don't we all have to find truth for ourselves?

Timothy J. Keller

In this talk, Dr Timothy J. Keller addresses the issue of absolutism. In today's society, absolute truth is thought to be the enemy of freedom. But truth is more important than you think, freedom is a lot more complex than you think, and Jesus is a lot more liberating than you think. Surrendering to God's absolute truth gives you a deeper, richer freedom in every area, without oppression.
