

Psychology as Religion

Paul Vitz

In a talk given at The Veritas Forum at the University of Florida in January 1995, Professor Paul Vitz provides a Christian critique of psychological theory as it relates to religious beliefs.

The talk lasts for about 45 minutes and is followed by a Q&A session of about 35 minutes. Some of the questions were difficult to hear and have been edited out but the answers stand on their own.

This talk is published here by the kind permission of The Veritas Forum.
